For over a decade, I have worked and enjoyed turning complex technical ideas into clear, tangible experiences, leading end-to-end design from product to brand for early-stage, venture-funded startups. My experience spans B2B, B2C, and developer tools.

Beyond software, I design high-end mechanical keyboards and accessories through my studio, 181.

Languages: English (advanced), Spanish (native).

## Experience

### Neurelo - Head of Product Design

Mar 2023 - July 2025 · 2 yrs 5 mos

- Owned product design direction and go-to-market for Neurelo Build, an AI-powered database platform. Shaped positioning, defined developer workflows, and launched onboarding and content to drive adoption.
- Led the strategic pivot to Neurelo Connect, a secure database layer for AI agents. Defined the product narrative, use cases, and early GTM motion focused on enterprise AI workflows and agentic data access.
